

TRUPHORIA

WELCOME TO A BRAND NEW SEASON FULL OF EXCITING THINGS COMING UP THROUGHOUT THE WORLD OF TRUPHORIA.

What makes Truphoria mushroom chocolate bars so unique is that they are made strain-specific and developed using a combination of real Belgian chocolate and the highest quality mushroom genetics. At Truphoria, we take pride in developing our own species of select mushrooms to ensure that every bar is dosed with the variety of mushroom best suited for each individual consumer. Our mission is to empower our growing community to choose the species that works best for them—while enjoying our mushrooms in a delicious fashion.
